|                           |          | 1 day                                                                                                 | supporting educators in the successful implementation of Carnegie Learning resources. This session serves as a foundational experience, helping leaders develop a clear vision of high-quality math instruction and what structures and supports must be in place to drive a productive implementation with integrity.                                                                                                                                                                                                                         |
| Fall 2026 and Spring 2027 | Teachers | Coaching, & Support: Collaborative Planning / PLC Facilitation<br>Face-to-face<br>3 days per site.    | To build deep, connected understanding of mathematics and ensure consistent, high-quality instruction across classrooms, Doing the Math sessions will bring together all same-grade-level teachers within a school for structured, content-rich collaborative planning. Held at the beginning of every topic, these sessions will create space for teachers to explore content as learners and reflect as practitioners. Our coaches will facilitate the first two sessions to model the protocols and build teacher comfort with the process. |
| Fall 2026 and Spring 2027 | Teachers | Virtual Coaching & Support<br>Job-Embedded Coaching & Support Sessions<br>18 coaching hours per site. | Carnegie Learning's Job-Embedded Coaching & Support provides onsite or virtual coaching that meets teachers where they are, offering real-time, side-by-side guidance to ensure a strong and confident implementation. Our expert coaches work hand-in-hand with educators to reinforce instructional best practices, enhance lesson delivery, and support student-centered, collaborative learning environments.                                                                                                                              |

|                                         |                             |                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|                           |          | 1 session                                                                                          | responsible for supporting educators in the successful implementation of Carnegie Learning resources. This session serves as a foundational experience, helping leaders develop a clear vision of high-quality math instruction and what structures and supports must be in place to drive a productive implementation with integrity.                                                                                                                                                                                                         |
| Fall 2026 and Spring 2027 | Teachers | Virtual Coaching, & Support<br>Collaborative Planning / PLC Facilitation<br>24 sessions per campus | To build deep, connected understanding of mathematics and ensure consistent, high-quality instruction across classrooms, Doing the Math sessions will bring together all same-grade-level teachers within a school for structured, content-rich collaborative planning. Held at the beginning of every topic, these sessions will create space for teachers to explore content as learners and reflect as practitioners. Our coaches will facilitate the first two sessions to model the protocols and build teacher comfort with the process. |
| Fall 2026 and Spring 2027 | Teachers | MyPL+ Essential for every teacher.<br>Virtual                                                      | MyPL+ is a full suite of live and on-demand, personalized, virtual learning tools designed to support teachers in real time. Through MyPL+, teachers choose the content that best aligns with their goals, the mode that fits their lifestyle, and the                                                                                                                                                                                                                                                                                         |

|                                         |                             |                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
